“

I think that people want to feel good in a space.  
On the one hand it's about shelter, but it's also  
about pleasure.

*Zaha Hadid

”

**Beautiful spaces speak.** They tell the stories of the people who live or work within them. Beautiful spaces are the story of us. Even when we are silent, beautiful spaces paint a picture of who we are. Beautiful spaces are expressions of us. Gallery 4 is our collection of new colours and designs. Carefully curated, balanced with our best loved current ranges. Inspired by global trends, but carefully interpreted to be perfect here at home, Gallery 4 is a new language with which to express the unique wonder that is you.

For some, it's just a room.  
For people like you, it's the place  
where inspiration sparks.

# A love of change.

**The world has changed dramatically, and the way we think about space is completely different.**

No single area has a single purpose. Work happens where we live and relax. Playful meets thoughtful.

Transformation and adaptability are the order of the day. A palette that allows you to mix and match colours and designs, create multi-functional spaces and to explore and merge different feelings and intentions.

All the choices  
you want.  
For all the things  
you want to say.

# In search

# of balance.

**A sense of wellbeing matters more than it ever has.** In a time more challenging than we can remember, places of calm, quiet and peace are vital to balance the trials of life. Subdued hues and minimalist designs bring a softness and a restful ease to your sanctuary. Give your imagination free reign and your spirit a place to revive.

# Handle with care.

**We have seen a rising concern for our environment, compassion for others and a greater desire for authentic sustainability.**

Caring for our planet and better options inspire many of the choices we make.

A more humble approach to life and the world speaks to the beauty of nature, respect for the environment and pays tribute to the value of artisanal craft.
